---

**Front-end developer Intern**  
Safe Your Web

oct 2024 - Jan 2025  
Delhi, India

- Developed a responsive certification platform, enabling 100+ students to take domain-based exams.
- Collaborated with backend developers to integrate authentication real-time data updates.
- Optimized UI performance by 30 percent using Tailwind CSS and Framer Motion.
- Enhanced mobile responsiveness, leading to a 40 percent increase in user engagement

## PROJECTS

---

**Second Brain: Personal Knowledge Management Platform .** Built a tool to store and manage important links (YouTube, Twitter, LinkedIn) using React.js and Node.js with a secure backend powered by JWT authentication and data hashing. The system allows users to store, organize, and securely share links with others. Over 500+ users have utilized the platform, with thousands of links stored and shared.!

**Fun Learn: Interactive Educational Platform.** Built an interactive educational platform featuring engaging games to help children learn while playing. Integrated user profiles to track progress and provide personalized feedback. The platform has been used by over 1,000+ students, enhancing their learning experience through gamification.

**Imagify: AI-Powered Image Generator** Tech Stack: MERN, Stripe, Tailwind CSS Built an AI-powered image generator with Stripe-based payments for purchasing image credits. Optimized performance, leading to a 20percent boost in engagement

**3D iPhone Website.** Developed a 3D interactive iPhone model using Three.js, with smooth animations powered by Framer Motion. Optimized for seamless rendering across devices and deployed on Vercel for high performance..
